SCIE SPÉCIALE INOX

BIENVENUE CHEZ LA MARQUE PAR EXCELLENCE DES SYSTÈMES DE GARDE-CORPS

Que signifie l'« excellence » pour nous ?
Nous cherchons inlassablement à atteindre
la perfection à laquelle vous aspirez.

L'EXCELLENCE EN TOUT POINT

Le meilleur, sinon rien

- Qualité constante
- Matériaux de choix
- Surfaces et finitions irréprochables
- Précision extrême des dimensions et des tolérances

Rapidité extrême

- Stock important
- Livraison rapide
- Conseil technique personnalisé et détaillé
- Commande en ligne 24h/24, 7j/7

Des possibilités pour chaque situation

- Large gamme de produits
- Grande variété de styles
- Tout ce dont vous avez besoin pour créer une main-courante ou un garde-corps complet
- Associez différents éléments pour composer un ensemble sur-mesure

Sécurité optimale

- Précision extrême des dimensions et des tolérances
- Contrôles approfondis effectués par des autorités de premier plan et des organismes indépendants et certifiés
- Essais et certifications officielles conformes aux principaux codes et normes de construction internationaux

La beauté et l'intelligence

- Nombreuses innovations et améliorations de produits chaque année
- Des designs pour tous les goûts
- Propriétés qui facilitent le montage

Ressources en ligne : www-q-railing.com

- Vidéos d'assemblage, objets BIM, dessins CAO et autres spécifications techniques
- Logiciel Q-PAC (Professional Anchor Calculation) qui vous permet d'identifier facilement le goujon Q-railing adapté
- Catalogues, brochures, projets de référence, etc.

NOS MATÉRIAUX

Inox

Résistant et d'aspect esthétique, l'inox est l'un des matériaux les plus appréciés pour les systèmes de garde-corps. Il en existe plusieurs types, caractérisés par de légères variations de composition. L'acier est naturellement sensible à la corrosion, mais divers éléments y sont ajoutés pour le rendre inoxydable. L'inox 304 correspond au standard de l'industrie pour un usage intérieur. Toutefois, l'inox 316 contient 2 % de molybdène, qui lui assure une résistance supplémentaire aux fissures, aux piqûres de rouille et aux dégradations causées par la tension. Nous conseillons donc généralement l'inox 316 pour l'extérieur.

Aluminium

Robuste et léger à la fois, l'aluminium est naturellement protégé de la corrosion par une couche d'oxyde. Mais celle-ci doit être renforcée pour plus de protection. La plupart des produits en aluminium du catalogue sont composés de métal anodisé (25 μ). Dans le cas contraire, le matériau est décrit comme de l'aluminium « brut de laminage ».

Acier revêtu par pulvérisation et thermolaqué

L'acier est un matériau à la fois hautement résistant et économique. Les produits en acier de Q-railing sont thermolaqués afin de résister à la corrosion et aux rayures. Ce traitement prépare également la surface au laquage ou au sablage.

Zamak

Robuste et bon marché, le zamak moulé est une alternative économique à d'autres métaux. Toutefois, nous le recommandons seulement pour l'intérieur. Pour lui donner plus d'éclat, vous pouvez lui appliquer un vernis ou un revêtement. D'ailleurs, de nombreux produits en zamak de Q-railing sont déjà revêtus pour vous simplifier la vie.

Nettoyage et entretien

L'inox offre une grande résistance à la corrosion et aux rayures mais doit être entretenu, notamment dans les conditions difficiles. Après avoir installé nos produits en inox, nous vous conseillons de traiter la totalité de la structure avec Q-ultra-clean afin de renforcer la couche passive, garantir une sécurité durable et préserver l'aspect d'origine.

D'autres matériaux utilisés dans nos produits, comme l'acier, l'aluminium et le zamak, peuvent se nettoyer avec de l'eau savonneuse tiède.

PRODUITS NETTOYANTS ET PROTECTEURS POUR INOX

Q-ultra-clean	Q-cleaner	Scotch®-Brite
Retire la pollution (ferritique) agressive et la corrosion de surface ; régénère et renforce la couche de protection passive.	Nettoie et redonne de la brillance.	Élimine les rayures.

Applications des matériaux

Facteurs environnementaux	Applications	Zamak	Aluminium	Acier revêtu par pulvérisation et thermolaqué	Inox 304	Inox 316

EASY GLASS® UP

LE GARDE-CORPS EN VERRE
POUR LES MURS DE PARAPET

Une vue dégagée pour les espaces délimités par des murets

Avec seulement 80 mm de hauteur, le profil de sol ultra-mince d'Easy Glass® Up reste extrêmement robuste.

- À l'intérieur comme à l'extérieur, ces garde-corps pour murs de parapet sont conçus pour une utilisation légère à moyenne
- Compatible avec des remplissages en verre d'une hauteur maximale de 700 mm
- Installation facile des panneaux du côté intérieur du garde-corps
- Montage facile et rapide du verre grâce au Safety Wedge System (jeu de cales avec caoutchouc)
- Peut s'utiliser avec :
 - Tous les tubes à fond de gorge, mains-courantes sur verre, profils en U et profils de protection Q-railing
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Q-lights Linear Light (pour les tubes à fond de gorge et mains-courantes éclairés par LED)

EASY GLASS[®] SLIM

LE CLASSIQUE
INTEMPOREL

La finesse d'un profil au service d'une transparence maximale

Easy Glass® Slim fait partie des classiques de notre gamme de garde-corps en verre. Résidence privée, bureau ou espace public : ce système de garde-corps en verre constitue une solution abordable quel que soit votre projet. Son esthétique minimaliste comprend un profil de sol fin conférant une apparence élégante à ce garde-corps tout en minimisant son poids.

- Conçu pour une utilisation légère à moyenne, à l'intérieur comme à l'extérieur, y compris dans les escaliers
- Montage facile et rapide du verre grâce à Safety Wedge System (jeu de cales avec caoutchouc)
- Peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Tous les tubes à fond de gorge, mains-courantes sur verre, profils en U et profils de protection Q-railing
 - Q-lights Linear Light (pour les tubes à fond de gorge et mains-courantes éclairés par LED)

D'une largeur de 45 mm seulement, le profil de sol minimaliste est léger et facile à manipuler

EASY GLASS[®] SMART

BATTEZ UN RECORD DE
VITESSE

Incorpore le système Q-disc. Reportez-vous à la page 40 pour tout savoir sur la nouvelle façon révolutionnaire de fixer des remplissages en verre.

La facilité d'installation par excellence

Easy Glass® Smart révolutionne le montage des garde-corps en verre. Finis les systèmes d'ancrage compliqués. Grâce à ses nombreuses innovations, dont le système Q-disc® pour l'installation du verre, Easy Glass® Smart vous permet de monter et démonter des panneaux de manière rapide, intuitive et maîtrisée. En effet, ces étapes demandent littéralement dix fois moins de temps qu'avec n'importe quel autre garde-corps en verre haut de gamme. Et les économies d'argent ne s'arrêtent pas là avec ce système très abordable.

- Profil de sol à montage au sol symétrique
- Pour une utilisation légère à moyenne, à l'intérieur comme à l'extérieur
- Recours aux ancrages réduit au minimum pour l'installation du profil de sol
- Plusieurs méthodes de fixation possibles : vis à tête hexagonale, ancrages mécaniques ou goujons d'ancrage
- Facile à manipuler avec les outils fournis
- Cales de profil en aluminium disponibles pour niveler les surfaces irrégulières

Easy Glass® Smart	UK	DE	NL	IT	CH	ES	FR
Max. charge linéaire (kN/m)	0,74	1,0	1,0	2,0	1,6	3,0	1,0

Merci de prendre en considération les spécifications de chaque certificat telles qu'épaisseur du verre, fixation. Pour plus d'informations, rendez-vous sur notre site internet, www.q-railing.com/certificat

DÉCLINAISONS D'EASY GLASS® SMART

Smart

Montage au sol

- Convient également pour scellement au sol (requiert l'utilisation d'une couche protectrice)

Smart

Montage latéral

- Cache de profil de sol en option

- Permet également un montage inverse
- Pour acrotères
- Cache de profil de sol en option

Q-DISC® SYSTEM

L'INNOVATION QUI MET LE MONDE SENS DESSUS DESSOUS

Nous allons révolutionner l'installation des garde-corps en verre. Le système révolutionnaire Q-disc® permet un gain de temps considérable dans le montage du verre en le simplifiant de manière radicale. Easy Glass® Smart est le tout premier garde-corps en verre qui intègre le système Q-disc.

Le principe :

1

Insérez la cale dans le profil de sol d'Easy Glass Smart

2

Positionnez le panneau de verre

3

Insérez le Q-disc

4

Raccordez l'outil au Q-disc et appuyez sur les côtés pour fixer le remplissage

Q-INFO MOD 6920

EASY GLASS® PRO

ALIGNER DES
PANNEAUX EN VERRE
EN TOUTE SIMPLICITÉ

Effectuez toute l'installation du côté intérieur du garde-corps

Le profil de sol Easy Glass® Pro est facile à installer. En outre, le Safety Wedge System constitué de cales en caoutchouc ajustables facilite également l'alignement du verre en vous permettant d'ajuster chaque panneau de manière indépendante jusqu'à 10 mm à la verticale. Et avec cinq variantes de profil, vous êtes certains de trouver une solution Pro adaptée aux contraintes de votre projet.

- À l'intérieur comme à l'extérieur, ces garde-corps sont conçus pour une utilisation légère à moyenne, y compris dans les escaliers
- Utilisation de goujons à tête hexagonale, moins onéreux que les goujons à tête fraisée
- Peut s'utiliser avec :
 - Tous les tubes à fond de gorge, mains-courantes sur verre, profils en U et profils de protection Q-railing
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Q-lights Linear Light (pour les caches de profils de sol, mains-courantes et tubes à fond de gorge éclairés par LED)

Installation et alignement du verre facilités

Easy Glass® Pro	UK	DE	NL	IT	CH	ES	FR
Max. charge linéaire (kN/m)	1,5	1,0	1,0	>2,0	1,6	1,6	1,0

Merci de prendre en considération les spécifications de chaque certificat telles qu'épaisseur du verre, fixation. Pour plus d'informations, rendez-vous sur notre site internet, www.q-railing.com/certificat

DÉCLINAISONS D'EASY GLASS® PRO

Pro

Montage au sol

- Également pour scellement au sol
- Aussi disponible en finition inox
- Cache de profil de sol éclairé par LED en option

Pro F

Montage au sol

- Pour sols bruts
- Peut aussi s'installer sur ou au-dessus de la bordure d'une surface

Pro

Montage latéral

- Cache de profil de sol en option

Pro Y

Montage latéral

- Pour sols bruts
- Peut aussi s'installer sur ou au-dessus de la bordure d'une surface
- Cache de profil de sol en option

Pro Inverse

Montage latéral

- Pour acrotères
- Cache de profil de sol en option

EASY GLASS® MAX

LE GARDE-CORPS EN
VERRE LE PLUS SOLIDE
JAMAIS CONÇU

Solide et léger à la fois, le profil de sol en aluminium est facile à manipuler

La robustesse et la sécurité sans compromis

Cet élégant système supporte aisément des charges extrêmement lourdes et des vents violents. Avec autant d'atouts, Max est idéal pour les grandes infrastructures publiques comme les stades, les aéroports et les centres commerciaux.

- À l'intérieur comme à l'extérieur, ces garde-corps sont conçus pour une utilisation intensive à extrêmement intensive, y compris dans les escaliers
- Facile à installer avec des goujons à tête hexagonale
- S'installe directement sur du béton, sans qu'aucune structure métallique ne soit nécessaire
- Montage facile et rapide du verre grâce au Safety Wedge System (jeu de cales avec caoutchouc)
- Peut s'utiliser avec :
 - Tous les tubes à fond de gorge, mains-courantes sur verre, profils en U et profils de protection Q-railing
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Q-lights Linear Light (pour les tubes à fond de gorge et mains-courantes éclairés par LED)

EASY GLASS® HYBRID

LA SOLUTION IDÉALE
POUR LES BALCONS

Un garde-corps avec ou sans poteaux ? à vous de choisir

Ce système polyvalent s'adapte parfaitement à certains environnements comme les balcons non saillants. Installé entre deux murs, il permet de créer sans poteaux un garde-corps tout en verre d'une largeur maximale de 3,2 mètres. Pour les balustrades plus longues ou dans les configurations dépourvues de murs de soutien, il vous suffit simplement d'ajouter de fins poteaux de balustrade. Avec un profil de sol de seulement 43 mm de hauteur, le système Hybrid donne vie à des structures élégantes et solides à la fois.

- À l'intérieur comme à l'extérieur, ces garde-corps sont conçus pour une utilisation légère à moyenne
- L'installation nécessite uniquement des chevilles et des vis
- Poteaux en acier thermolaqué RAL 7047 ou prêts à recevoir un revêtement par poudre
- Peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Q-lights Linear Light (pour les tubes à fond de gorge éclairés par LED)

Easy Glass® Hybrid	UK	DE	NL	IT	CH	ES	FR
Max. charge linéaire (kN/m)	0,74	0,5	0,5	3,0	0,8	3,0	1,0

Merci de prendre en considération les spécifications de chaque certificat telles qu'épaisseur du verre, fixation. Pour plus d'informations, rendez-vous sur notre site internet, www.q-railing.com/certificat

EASY GLASS®

BALCONS À LA FRANÇAISE

LA SÉCURITÉ POUR LES FENÊTRES ALLANT DU SOL AU PLAFOND

Easy Glass®
MOD 6507/6508

Easy Glass® View

Une solidité à toute épreuve pour des structures élégantes et minimalistes.

Le système de balcon à la française Easy Glass® MOD 6507/6508 offre une barrière de sécurité ultra-sécurisée tout en finesse. Il se fixe à la façade avec un tube à fond de gorge en inox au moyen d'embases murales. Le système de balcon à la française Easy Glass® View possède quant à lui des profils en aluminium qui permettent une fixation sur la façade, entre des tableaux de fenêtre ou sur des encadrements de fenêtre.

- Balcons à la française destinés à une utilisation légère à moyenne
- MOD 6507/6508 peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Q-lights Linear Light (pour les tubes à fond de gorge et mains-courantes éclairés par LED)
- Peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Tous les profils de protection et profils en U de Q-railing

Easy Glass® 6507 / 6508	UK	DE	NL

EASY GLASS® WALL

UNE PAROI VITRÉE
ET UN GARDE-CORPS
EN UN SEUL PRODUIT

Ouvrez votre escalier

Pourquoi créer un escalier lumineux et aérien pour ensuite le fermer avec une paroi opaque ? Grâce à Easy Glass® Wall, faites de votre réalisation un véritable objet de décoration. Ce système permet de créer une paroi vitrée allant du sol au plafond en faisant également office de garde-corps. En plus de mettre en avant l'esthétique de votre escalier, le verre permet de profiter de la lumière naturelle.

- Parois allant jusqu'au plafond conçues pour une utilisation légère à moyenne, à l'intérieur comme à l'extérieur
- Installation facile confirmée par un clic sécurisant
- Pour des panneaux de verre d'une hauteur maximale de 3,5 m et de portées variables
- Compatible avec tous les supports et mains-courantes Q-railing conçus pour le verre

Cette paroi en verre est soutenue par d'élégants profils en aluminium fixés au sol et au plafond.

Créez une lumière d'ambiance et un environnement sécurisé en habillant votre garde-corps d'un magnifique éclairage.

Ajoutez un subtil éclairage à votre garde-corps pour sublimer l'ambiance d'un espace tout en sécurisant son usage. Q-lights est une solution d'éclairage dissimulé à la fois efficace et économique. Il est facile à installer, à utiliser et à maintenir.

- Éclairage LED linéaire pour tubes à fond de gorge, mains-courantes et profils de sol
- Les bandes LED produisent une lumière blanche chaude/froide (24 V – IP20 pour l'intérieur et IP66 pour l'extérieur)
- Peut s'utiliser avec un variateur de lumière
- Pré-câblé, aucun fil visible
- Système anti-vandalisme (IK10)
- Compatible avec la plupart des systèmes Q-railing

DÉCLINAISONS DE Q-LIGHTS

Linear Light

Tubes à fond de gorge Linear Light

- Les bandes LED se positionnent devant ou derrière le verre
- Profils en plastique transparent ou dépoli
- Adaptateurs spéciaux pour intégrer les bandeaux LED dans les tubes à fond de gorge

Mains-courantes Linear Light

- Supports de main-courante avec passe-câble
- Profils en plastique transparent ou dépoli

Profils de sol Linear Light

- Habillage latéral intégrant le bandeau LED avec Easy Glass® Pro
- Aspect inox brossé

Q-INFO

INFORMATIONS BANDES LED

- Toutes les bandes sont pré-câblées une fois. Pour davantage de connections, utilisez un câble de liaison (page 191).
- Chaque bande peut être coupée à la longueur prédéfinie entre les points de cuivre sur la bande à l'aide de ciseaux.
- Bandes LED peuvent être coupées et reliées au moyen d'un raccordement (page 193).

- Tous les modèles d'adaptent aux pièces de raccord Linear Light et à la main-courante Linear Light. (pages 194-202).
- Lorsque des bandes sont reliées entre elles au moyen de raccordements, la longueur maximale d'une extrémité à l'autre de la bande LED ne doit pas excéder la longueur originale de la bande !

NOTES DE SÉCURITÉ

- Seuls les électriciens qualifiés sont habilités à installer les modules secteur en respectant et observant les réglementations et normes en vigueur.
- Ne pas dépasser la puissance électrique maximale autorisée.

- Attention à la polarité. Si elle est incorrecte, le produit peut être endommagé. Seule une connexion en parallèle garantit la sécurité de l'installation.
- Les alimentations électriques utilisées doivent protéger contre tout risque de

court-circuit, surcharge ou surchauffe et être sécurisées grâce à une source SELV (source basse tension externe).

AFFIRMEZ VOTRE STYLE

Créez le look de vos envies. Nos garde-corps à poteaux se déclinent dans un large éventail de styles, avec des formes rondes ou carrées. Pour les remplissages, vous avez également le choix entre des câbles, des barres, un filet, des panneaux en tôle ou du verre.

Envie d'une création plus personnelle ? Rien de plus simple en combinant des éléments de nos différentes gammes de produit.

ÉLÉMENTS DE GARDE-CORPS

Nos systèmes de garde-corps à poteaux sont généralement composés de trois parties (A-B-C), chacune étant divisée en plusieurs groupes de produit. Découvrez les différentes options disponibles au fil des pages suivantes. ▶

- A** Poteaux de balustrade
- B** Mains-courantes

DUO LINE

UN LOOK INDUSTRIEL
SPECTACULAIRE

Un design remarquable aux lignes épurées

Avec son élégante combinaison de finitions inox et gris anthracite RAL 7016, Duo Line adopte les codes du style industriel. Outre son esthétique réussie, il se caractérise également par une grande fonctionnalité. Il est en effet très simple à installer : pour monter le remplissage, il suffit de glisser les adaptateurs de remplissage dans les poteaux en aluminium revêtus de peinture en poudre électrostatique et enfin de positionner les remplissages.

- Déclinaisons en montage au sol et latéral
- À l'intérieur comme à l'extérieur, ces garde-corps sont conçus pour une utilisation légère à moyenne, y compris dans les escaliers
- Revêtement sablé anti-rayures
- Pince à verre MOD 42 disponible avec revêtement assorti
- Remplissages ajustables même après installation
- Peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Tous les garde-corps Q-railing, ronds ou carrés, en inox ou en bois (Naturail et Bendywood)
 - Q-lights Linear Light et Q-lights Spotlight (pour mains-courantes éclairées par LED)

SQUARE LINE® 40x40

FORMES GÉOMÉTRIQUES
ET LIGNES DROITES

Un esprit résolument contemporain

Square Line® 40x40 prouve que simplicité et design peuvent aller de pair. Ses lignes épurées et sa finition en inox confèrent aux garde-corps et aux rampes d'escalier une esthétique élégante d'une grande sobriété. Mais si vous préférez les formes arrondies, ce n'est pas un problème. Square Line s'adapte facilement à vos envies : pourquoi ne pas l'associer à certains éléments d'autres systèmes de garde-corps Q-railing ?

- Déclinaisons en montage au sol et latéral
- À l'intérieur comme à l'extérieur, ces garde-corps sont conçus pour une utilisation légère à moyenne, y compris dans les escaliers
- Aucune soudure requise, l'installation se fait par collage, perçage et taraudage
- Peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Tous les garde-corps Q-railing, ronds ou carrés, en inox ou en bois (Naturail et Bendywood)
 - Q-lights Linear Light et Q-lights Spotlight (pour mains-courantes éclairées par LED)

SQUARE LINE® 60x30

FORMES PERCUTANTES

Des lignes sobres et une solidité à toute épreuve

Square Line® 60x30 possède un look sans compromis, idéal pour un parti pris audacieux. La main-courante et les poteaux en inox de ce système s'affirment avec des formes géométriques simples et s'adaptent aux configurations exigeant des niveaux de sécurité élevés.

- Déclinaisons en montage au sol et latéral
- À l'intérieur comme à l'extérieur, ces garde-corps sont conçus pour une utilisation légère à moyenne, y compris dans les escaliers
- Aucune soudure requise, l'installation se fait par collage, perçage et taraudage
- Peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Tous les garde-corps Q-railing, ronds ou carrés, en inox ou en bois (Naturail et Bendywood)
 - Q-lights Linear Light et Q-lights Spotlight (pour mains-courantes éclairées par LED)

Square Line 60x30	UK	DE	NL	IT	CH	ES	FR
Max. charge linéaire (kN/m)	3,0	1,0	0,8	2,0	3,0	3,0	1,0

Merci de prendre en considération les spécifications de chaque certificat telles qu'épaisseur du verre, fixation. Pour plus d'informations, rendez-vous sur notre site internet, www.q-railing.com/certificat

Q-LINE

LIGNES DOUCES
ET FLEXIBILITÉ

Un système aux possibilités infinies

Q-line est certainement notre système le plus polyvalent. Il se décline en une très large gamme d'éléments qui répondent à la plupart des défis architecturaux et à presque toutes les exigences spécifiques. Il vous permet même de créer un garde-corps avec une finition polie miroir intégrale. Pourquoi ne pas lui intégrer des éléments d'autres systèmes pour créer un design totalement unique ? Laissez libre cours à votre imagination.

- Déclinaisons en montage au sol et latéral
- À l'intérieur comme à l'extérieur, ces garde-corps sont conçus pour une utilisation légère à moyenne, y compris dans les escaliers
- Aucune soudure requise, l'installation se fait par collage, perçage et taraudage
- Peut s'utiliser avec :
 - Q-glass (remplissage en panneau de verre standard ou sur mesure)
 - Tous les garde-corps Q-railing, ronds ou carrés, en inox ou en bois (Naturail et Bendywood)
 - Q-lights Linear Light et Q-lights Spotlight (pour mains-courantes éclairées par LED)

À POTEAUX

Q-lights Linear Light pour mains-courantes

321

Q-lights Spotlight pour mains-courantes

318

Transformez un garde-corps ou un escalier tout en renforçant sa sécurité.

La lumière est l'un des plus puissants vecteurs d'émotions. Elle peut complètement changer votre ressenti d'un lieu. Q-lights Linear Light et Q-lights Spotlight vous offrent une incroyable palette d'effets lumineux. Ajoutez-les à votre système Q-railing et éclairez votre garde-corps au gré de vos envies grâce à une télécommande.

- Grâce aux lampes LED, Linear Light offre un flot de lumière ininterrompu, tandis que Spotlight permet d'espacer les différents points d'éclairage
- Les bandes ou les spots s'installent d'un simple clic
- Pré-câblé, aucun fil visible
- Système anti-vandalisme (IK10)
- Compatible avec la plupart des systèmes Q-railing

DÉCLINAISONS DE Q-LIGHTS

Linear Light

- Pour les mains-courantes (adaptateurs spéciaux pour installer les tubes à fond de gorge à LED sur les supports de main-courante)
- Lumière blanche chaude/froide (24 V – IP20 pour utilisation à l'intérieur et IP66 pour utilisation à l'extérieur)
- Profils en plastique transparent ou dépoli
- Les bandes LED se positionnent devant ou derrière le remplissage

Spotlight

- Pour les tubes ronds (Ø 42,4 ou 48,3 mm)
- Supports et adaptateurs pour main-courante et embases murales avec passe-câble
- 12 V (IP20 pour utilisation à l'intérieur et IP66 pour utilisation à l'extérieur)

Pour tube de 42,4 x 2,0 mm

Q-INFO

Fraisage recommandé.
A défaut l'utilisation d'un foret étagé
est nécessaire. Les trous doivent être
ébavurés à l'intérieur et à l'extérieur
et la limaille éliminée complètement.

MOD 0051 et 0052 sont disponibles en plusieurs coloris.
Veuillez contacter votre service commercial pour en savoir plus.

320

Q-INFO

Pour un éclairage optimal, Q-railing recommande un espacement de 600 mm entre les spots.

Efficacité lumineuse d'une main courante placée à 900 mm au-dessus du sol/d'un escalier

	Distance (A) entre les projecteurs LED (mm)							
	400		600		1000		1200	
Distance du mur (mm)	IP20	IP66	IP20	IP66	IP20	IP66	IP20	IP66
0	16 lx	18 lx	14 lx	17 lx	8 lx	14 lx	7 lx	13 lx
600	12 lx	15 lx	12 lx	15 lx	9 lx	12 lx	6 lx	10 lx
1000	7 lx	8 lx	5 lx	7 lx	5 lx	6 lx	3 lx	5 lx
1500	2 lx	3 lx	2 lx	3 lx	2 lx	2 lx	1 lx	1 lx

Valeurs indicatives en lux
 Eclairage solaire direct = 100.000 lx Eclairage d'un hall = 100 lx
 Temps couvert, éclairage d'un studio de TV = 1.000 lx Eclairage d'une rue = 10 lx
 Eclairage d'une bougie à 1 m. de distance env. = 1 lx

Les calculs d'espacement entre chaque led sont donnés à titre indicatif. Chaque configuration étant différente, nous vous recommandons vivement de faire appel à un professionnel.

Q-INFO

NOTES DE SÉCURITÉ

- Seuls les électriciens qualifiés sont habilités à installer les modules secteur en respectant et observant les réglementations et normes en vigueur.
- Ne pas dépasser la puissance électrique maximale autorisée.
- Attention à la polarité. Si elle est incorrecte, le produit peut être endommagé. Seule une connexion en parallèle garantit la sécurité de l'installation.
- Ebavurage (intérieur et extérieur) indispensable avant l'installation des spots.
- Les alimentations électriques utilisées doivent protéger contre tout risque de court-circuit, surcharge ou surchauffe et être sécurisées grâce à une source SELV (source basse tension externe).

TRANSPARENCE CRISTALLINE ET SÉCURITÉ ABSOLUE

Ne vous fiez pas à sa fragilité apparente, le verre est un matériau extrêmement solide et Donc un excellent choix pour habiller vos garde-corps. Et en l'associant aux supports de remplissage en verre hautement résistants de Q-railing, vous obtiendrez un garde-corps pratiquement indestructible. Et nous le savons d'expérience ! Dans notre centre de test, nos produits sont soumis en permanence à des essais rigoureux. Ils font également l'objet de contrôles approfondis de la part d'autorités de premier plan et d'organismes indépendants et certifiés.

Nos pinces à verre, qui sont testées conformément à la norme européenne EN-12600, peuvent donc supporter des charges dynamiques allant jusqu'à 50 kg, que vous choisissiez de les associer à du verre feuilleté trempé ou à du verre monolithique (6 - 21,52 mm). Ces deux options sont certifiées DIN et BS, ainsi que AbZ pour l'Allemagne.

Les pages suivantes présentent les résultats d'essais effectués pour vous aider à choisir les pinces à verre adaptées aux différents panneaux, afin d'obtenir des résultats optimaux approuvés.

CERTIFICATION

Nos pinces à verre ont été testées conformément à la norme DIN/EN 12600 et sont donc certifiées AbZ pour l'Allemagne. Les résultats approuvés sont présentés sur les pages suivantes.

AbZ - EN-12600

SÉCURITÉ

Fixation latérale ? La sécurité avant tout.

Utilisez des goupilles de sécurité ou pattes de blocage.

D LINE

d line
HANDRAIL SYSTEM

Design danois signé *Knud Holscher.*

“Le système d line de main-courante en inox se caractérise par un design minimaliste et caractéristique particulièrement réussi. Il s’agit d’une gamme fonctionnelle de produits aux lignes élégantes facile à installer, à modifier ou à réparer. Le système de main-courante d line s’adapte en outre aux architectures les plus complexes sans en compromettre l’esthétique.”

Un design fluide qui s'intègre partout

red**dot**

Un produit d'un nouveau type

Fondamentalement, d line incarne la flexibilité. Tels les cubes d'un jeu de construction, l'ensemble du système est constitué d'éléments modulaires offrant une totale liberté de création. Que la main-courante comporte de multiples changements directionnels ou que la cage d'escalier présente une architecture complexe, les différents modules s'adaptent à tout espace sans compromettre l'esthétique.

Le système offre une finition impeccable. Tous les éléments de la gamme sont parfaitement assortis, si bien

que, quels que soient les éléments que vous associez, vous obtiendrez toujours un ensemble harmonieux.

Avec un design particulièrement soigné, d line crée un effet très raffiné. La lumière et l'espace occupent le devant de la scène, rien ou presque ne venant perturber le champ visuel.

Un gage de qualité

Superbe association de verre et d'inox 316, d line est une gamme à la fois élégante et conçue pour durer. Vous pouvez recommander d line en toute confiance sur le plan de la sécurité : capable d'absorber des forces jusqu'à 3 kN,

l'ensemble de la gamme est conforme à différentes normes.

Une conception intuitive

Grâce à notre technique de montage modulaire, l'installation est plus simple et plus rapide. d line peut ainsi être posée durant la dernière phase de réalisation du projet afin de protéger la main-courante et de ne pas gêner le déroulement des travaux. Facile à monter, à démonter ou à modifier, d line s'adapte à l'espace. Avec son design intemporel et sa flexibilité de montage, vous disposez là d'un système de main-courante à l'épreuve du temps.

Q-INFO MOD 0723 / 0724

Une mauvaise manipulation de l'inox peut provoquer la formation de rouille; outre des dégâts visibles, une extension éventuelle de la corrosion peut se produire, entraînant alors des frais additionnels, des plaintes de clients mécontents et même un danger éventuel.
En utilisant des outils spécifiques en inox, vous éviterez tous ces problèmes éventuels. Ces outils en inox ont été trempés comme les outils conventionnels.

Pour une efficacité optimale, l'inox doit être découpé avec une scie adaptée. Les scies à inox sont dotées d'un moteur tournant au ralenti mais très résistant. Le poids réduit de la scie en fait l'outil professionnel indispensable sur un chantier.

SERVICES ET INFORMATIONS

Prefix	478
Bon de commande	479
Index des symboles	480

PREFIX VOUS SIMPLIFIE LA VIE

La préparation est la clé du succès. Alors pourquoi ne pas économiser votre temps et votre argent en faisant appel à notre service prefix lors de votre prochain achat d'une solution de garde-corps auprès de Q-railing ? Vos articles vous seront livrés prêts à installer.

Pour commander des services prefix, il vous suffit de télécharger et de remplir le formulaire de demande sur : www.q-railing.com/prefix

Cintrage

Nous pouvons réaliser des opérations de cintrage en 2D ou 3D sur les éléments tubulaires, tubes à fond de gorge, profils en U, profils de protection pour traverses supérieures et même les profils de sol Easy Glass®. Grâce à ce service de qualité, vous recevrez les tailles et courbures exactes que vous avez commandées.

Découpe et fraisage

Pour vous simplifier la vie, vous pouvez nous demander de pré-découper des produits en inox, en aluminium ou en bois. Ce service s'applique aux mains-courantes, tubes à fond de gorge, poteaux et profils de sol Easy Glass®. À réception de vos articles, vous constaterez que les onglets auront été découpés ou les trous fraisés pour permettre l'installation de spots LED, par exemple.

Perçage et taraudage

Lorsque vous aurez essayé notre service de perçage et de taraudage, vous ne pourrez plus vous en passer pour vos achats de poteaux ou de mains-courantes auprès de Q-railing. En appliquant vos spécifications exactes, nous réaliserons tous les trous et filetages nécessaires à l'installation.

Soudure

Nos produits standard ne nécessitent que très rarement d'être soudés pour s'adapter à des configurations particulières. Mais cela n'est pas un problème. Laissez-nous pré-souder vos produits sur mesure et vous les livrer prêts à installer.

Pré-assemblage

Pour recevoir des produits Q-railing pré-assemblés selon vos besoins, il vous suffit de commander notre service prefix. Imaginez le gain de temps si vous receviez, par exemple, les supports de vos pinces à verre ou de vos barres transversales déjà montés.
